# 1. Corporate Information

Sprott Resource Holdings Inc. (formerly Adriana Resources Inc. or "ADI") (together with its subsidiaries, "SRHI" or the "Company") was incorporated under the laws of British Columbia and continued under the *Canada Business Corporations Act* ("CBCA"). The primary purpose of the Company is to own cash-flowing businesses and businesses expected to cash flow in the natural resource sector. The Company currently holds a strategic control position in a business in the mining sector and a legacy control position in an agriculture business, along with other non-controlling equity investments in the mining and energy production sectors. The Company completed its transition from a publicly listed private equity company to a diversified resource holding company on February 1, 2018 (the "Transition Date") resulting in the Company consolidating the financial results of its controlled equity investments from that date.

The Company's current principal operating business is its 70% equity interest in the Chilean producing copper mine Minera Tres Valles SpA ("MTV"). MTV's main asset is the Minera Tres Valles mining project, in the Province of Choapa, Chile which includes fully integrated processing operations and two active mines. The active ore extraction operations include the Don Gabriel open pit mine ("Don Gabriel") and the Papomono underground mine ("Papomono"). The first copper cathodes shipment took place in January 2011. The Company has consolidated MTV from the Transition Date and the net loss of the Company includes the net loss of MTV from the Transition Date.

The Company is listed on the Toronto Stock Exchange ("TSX") and trades under the symbol "SRHI".

The Company's head office is located at Royal Bank Plaza, South Tower, 200 Bay Street, Suite 2600, Toronto, Ontario, Canada, M5J 2J1.

These Financial Statements (as defined below) were approved for issue by the Board of Directors (the "Board") on May 7, 2019.

# 2. Accounting Policies

## a. Basis of Preparation

These unaudited condensed interim consolidated financial statements ("Financial Statements") of the Company have been prepared on a going concern basis in accordance with International Accounting Standard 34 - Interim Financial Reporting, and, accordingly, they do not contain all information and disclosures required for complete financial statements in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"). Therefore, they should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2018.

The Company's presentation currency is the United States ("USD") dollar. Reference herein of \$ or USD is to USD dollars, CAD is to Canadian dollars and CLP refers to the Chilean peso.

These Financial Statements have been prepared on a historical cost basis except for FVTPL which is measured at fair value.

Balance sheet items are classified as current if receipt or payment is due within twelve months. Otherwise, they are presented as non-current.

#### New and amended accounting standards adopted

The accounting policies followed in these Financial Statements are consistent with those disclosed in Note 2 of the Company's consolidated financial statements for the year ended December 31, 2018 except for the adoption of IFRS 16 *Leases* which became applicable for the current reporting period. The impact of the adoption of the leasing standard is disclosed in part (b) below.

Due to rounding, numbers presented may not add up precisely to totals provided.

#### b. Accounting Standard Adopted

As at January 1, 2019, the Company adopted IFRS 16 Leases.

The Company has adopted IFRS 16 following the modified retrospective basis approach from January 1, 2019 and has not restated comparatives for the 2018 reporting period, as permitted under the specific transitional provisions in the standard. The adjustments arising from the new leasing standard are therefore recognized in the opening balance sheet on January 1, 2019.

Adjustments recognized on adoption of IFRS 16

On adoption of IFRS 16, the group recognized lease liabilities in relation to leases which had previously been classified as operating leases under the principles of IAS 17 Leases. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of January 1, 2019. The weighted average lessee's incremental borrowing rate applied to the operating lease commitments on January 1, 2019 was between 3.5% and 3.8% depending on the length of the lease.

Sprott Resource Holdings Inc.

Notes to Condensed Interim Consolidated Financial Statements

For the three months ended March 31, 2019 and 2018

Unaudited - Tabular amounts expressed in thousands of United States dollars except as noted

The following table reconciles the Company's operating lease obligation as at December 31, 2018 as previously disclosed in the Company's consolidated financial statements, to the new obligation recognized on adoption of IFRS 16 of January 1, 2019.

Operating lease commitments disclosed as at December 31, 2018	\$ 723
Add: Embedded leases	1,195
Less: Discount	(133)
Discounted operating lease commitments using the lessee's incremental borrowing rate as at January 1, 2019	\$ 1,785
Add: finance lease liabilities recognized as at December 31, 2018	 675
Lease liability recognised as at January 1, 2019	\$ 2,460
Lease liabilities included in current portion of loans and borrowings	\$ 925
Non-current lease liabilities included in non-current portion of loans and borrowings	 1,535
Lease liability recognised as at January 1, 2019	\$ 2,460

Right-of-use assets were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the balance sheet as at December 31, 2018. There were no onerous lease contracts that would have required an adjustment to the right-of-use assets at the date of initial application.

The recognized right-of-use assets relate to the following types of assets:

	As at
	 Jan 1, 2019
Machinery and equipment	\$ 1,384
Building and mining facilities	401
Right-of-use asset recognized as at January 1, 2019	\$ 1,785

The impact of adopting the policy only impacted the MTV segment and had no material effect on earnings per share. The group has also elected not to reassess whether a contract is, or contains a lease at the date of initial application. Instead, for contracts entered into before the transition date the group relied on its assessment made applying IAS 17 and IFRIC 4 Determining whether an Arrangement contains a Lease.

The Company has applied the following practical expedients permitted by IFRS 16:

- the accounting for operating leases with a remaining lease term of less than 12 months as at January 1, 2019 as short-term leases;
- the exclusion of initial direct costs from the measurement of the right-of-use asset at the date of initial application; and
- the use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

The Company's leasing activities and how these are accounted

Until the 2018 financial year, assets financed by leasing agreements that give rights approximating ownership (finance leases) are capitalized at fair value. The capital elements of future obligations under finance leases are included as liabilities in the Consolidated Statements of Financial Position and the interest element is charged to the Consolidated Statements of Operations and Comprehensive Loss. Annual payments under other lease arrangements, known as operating leases, are charged to the Consolidated Statements of Operations and Comprehensive Loss on a straight-line basis.

At inception of a contract, the Company assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company has elected not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less, and leases of low-value assets. For these leases, the Company recognizes the lease payments as an expense in net earnings on a straight-line basis over the term of the lease.

From January 1, 2019, leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company. Right-of-use assets are measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or

Sprott Resource Holdings Inc.

Notes to Condensed Interim Consolidated Financial Statements

For the three months ended March 31, 2019 and 2018

Unaudited - Tabular amounts expressed in thousands of United States dollars except as noted

accrued lease payments relating to that lease recognized in the balance sheet as at December 31, 2018. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. Lease liabilities are measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of January 1, 2019. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Lease payments included in the measurement of the lease liability are comprised of:

- · fixed payments, including in-substance fixed payments, less any lease incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- · amounts expected to be payable under a residual value guarantee;
- · exercise prices of purchase options if we are reasonably certain to exercise that option; and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

## 3. Significant Judgments, Estimates and Assumptions

The preparation of these Financial Statements in accordance with IFRS requires the use of certain critical accounting estimates. These estimates are based on management's best knowledge of the relevant facts and circumstances taking into account previous experience, but actual results may differ materially from the amounts included in the Financial Statements.

In preparing these Financial Statements, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended December 31, 2018.

#### 4. Business Combinations

MTV Deemed Acquisition

Effective the Transition Date, MTV was accounted for as a business acquisition in accordance with IFRS 3, *Business Combinations*. As such, the Company accounted for MTV in accordance with this standard using the acquisition method with SRHI as the acquirer.

Beretta Deemed Acquisition

Effective the Transition Date, Beretta was accounted for as a business acquisition in accordance with IFRS 3, *Business Combinations*. The assets and liabilities of Beretta acquired by the Company are presented as assets and liabilities held for sale and subsequent results of operations as discontinued operations (See Note 7).

Details of these business combinations were disclosed in note 4 of the Company's annual financial statements for the year ended December 31, 2018.

## 5. Inventories

		As at			
	M	ar. 31, 2019	Dec.	31, 2018	
Supplies and consumables	\$	1,678	\$	1,398	
Work in progress		20,970		18,153

	Mar. 31, 2	019	Dec	. 31, 2018
Portfolio investments included in current assets	\$ 1	6,863	\$	14,899
Amounts included in non-current assets		4,682		4,586
Total portfolio investments owned, at fair value	\$ 2	1,545	\$	19,485

The Company's portfolio investments are comprised of equity holdings as at March 31, 2019 and December 31, 2018.

As at March 31, 2019 and December 31, 2018, all of the Company's portfolio investments that trade on a publicly listed exchange are classified as current assets.

In January 2019, proceeds of \$4.2 million from the maturity of a senior secured credit facility investment were received. This amount was included in Trade and other receivables at December 31, 2018.

# 7. Asset Classified as Held for Sale

The Company holds a 49.98% interest in Beretta, a Canadian company. Effective the Transition Date, the Company reclassified its equity investment as an asset classified as held for sale.

As at			
Mar.	31, 2019	Dec. 31, 2018	
\$	15,746	\$ 14,013	
	(5,976)	(2,964)

a. On January 26, 2017, MTV entered into a line of credit financing contract with an investment fund in the amount of \$9.5 million with an annual interest rate of 10%. In 2018, the credit financing contract was renewed and extended to \$15 million. At that time, the Company became guarantor to the credit facility replacing the former majority shareholder. The facility matures in June 2019.

MTV agreed to the following security:

- All copper cathode stock, both in its finished state, as ore and any product still undergoing processing;
- The naming of investment fund as the beneficiary of insurance proceeds from any theft of copper cathodes;
- The naming of investment fund as the main beneficiary of risk for the transport of copper cathodes; and,
- First priority interest over certain assets including plant and machinery.

Leases have interest rates between 3.5% and 27.5%, a term of 2 and 3 years and are secured by the equipment.

# 11. Equity

## a) Authorized

Unlimited common shares with no par value.

The holders of the common shares are entitled to one vote per share and are entitled to dividends, when and if declared by the Board, and to the distribution of the residual assets of the Company in the event of the liquidation, dissolution or winding-up of the Company.

# b) Issued and outstanding

Common shares (#)	Amount
Balance - December 31, 2018 and March 31, 2019 34,082,992 \$	303,990

# c) Common share purchase warrants

Common share purchase warrants outstanding were as follows:

Warrants	s (#)	Amount
Balance - December 31, 2018 and March 31, 2019 201,138,	,560 \$	6,026

All common share purchase warrants have an exchange ratio of 20 warrants for 1 common share and expire on February 9, 2022, with an equivalent exercise price of CAD\$6.66 per common share.

# d) Stock options

The number of stock options outstanding as at March 31, 2019 was 175 thousand (December 31, 2018: 175 thousand) at a weighted average exercise price of CAD\$3.74 (December 31, 2018: CAD\$3.74).

The following table summarizes the stock options outstanding as at March 31, 2019:

Expiry date	Weighted average remaining contractual life (years)	Exercise price (per unit), CAD	per of sable tions	ber of exer	Number of options
May 12, 2019	0.12	3.40	5,000 \$	25,000	25,000
November 17, 2020	1.64	3.80	0,000	50,000	150,000
	1.42		5,000	75,000	175,000

# e) Treasury stock

	Common shares (#)	Amount

Other		203	117
	\$	10,168	\$ 5,709

# 14. Loss per Share

Loss per share is calculated by dividing the net loss of the Company by the weighted average number of shares outstanding during the period.

Diluted earnings per share is calculated by adjusting the weighted average number of shares outstanding to assume conversion of all potentially dilutive shares. The potentially dilutive shares of the Company relate to warrants, stock options and treasury stock. A calculation is done to determine the number of shares that could have been acquired at fair value (determined as the average annual market share price of the Company's shares) based on the exercise prices of outstanding stock options and warrants. The number of shares calculated as described in the preceding sentence is compared with the number of shares that would have been issued assuming the exercise of the stock options and warrants. All unvested treasury shares are deemed to have vested at the beginning of the period or date of issuance, if later.

	Three months	s ended

Basic and fully diluted loss per share	\$ (0.12) \$	(0.26)

## 15. Contingencies and Commitments

Management Services Agreement ("MSA")

An MSA was entered into, effective February 8, 2017, between SRHI and SCLP, an entity which is directly and indirectly wholly-owned by Sprott, replacing the old MSA (the "Old MSA") between SRC and SCLP. The MSA was amended on the Transition Date to reflect the Company's transition to a diversified holding company.

Under the MSA, management for SRHI are provided and have the power and authority to transact the business of SRHI and to deal with and in SRHI's assets for the use and benefit of SRHI, except as limited by any direction of the Board, and subject to certain limits on authority established from time to time by the Board.

Within the terms and conditions established by the Company, the management provided under the MSA will manage SRHI's investment activities and assets, and administer the day-to-day operations of SRHI.

For the three months ended March 31, 2019 and 2018

Unaudited - Tabular amounts expressed in thousands of United States dollars except as noted

Contractual obligations of the Company as at March 31, 2019 are as follows:

	1 year	1 - 3 years	More than 3 years	Total
Accounts payable and accrued liabilities	\$ 22,571 \$	<b>-</b> \$	<b>-</b> \$	22,571
Line of credit	14,276	_	_	14,276
Leases	1,072	1,334	_	2,406

Reclamation and other closure provisions	_	<u> </u>	5,491	5,491
As at March 31, 2019	\$ 37,919 \$	3,369 \$	5,491 \$	46,779

As of March 31, 2019, commitments to purchase (i) property, plant and equipment amounted to \$0.9 million and (ii) mining operating supplies amounted to \$8.1 million.

# 16. Operating Segments

The Company has two reportable segments. MTV is the Company's principal operating business. Corporate includes the Canadian corporate office which holds portfolio investments in the mining and energy sectors as well as an asset held for sale that reflects a 49.98% interest in Beretta which was previously reflected as a portfolio investment in prior periods.

Significant information relating to reportable operating segments is summarized below:

As at March 31, 2019	MTV	Corporate	Total
Assets	\$ 110,207	\$ 31,837	\$ 142,044

<sup>1</sup> MTV was deemed to be acquired on the Transition Date and as a result, the operations of MTV are for the two months ended March 31, 2018.

Effective the Transition Date, the Company reported Beretta as held for sale and consolidates MTV. Prior to the Transition Date, both Beretta and MTV were portfolio investments reported at FVTPL under Investment Entity Reporting.

Effective the Transition Date, Beretta was reclassified as held for sale and all assets and liabilities of Beretta are presented separately in the Consolidated Statements of Financial Position as current assets and current liabilities respectively. See Note 7.

For the three months ended March 31, 2019, 94% of the revenues (\$8.6 million) was from one customer based in Switzerland. For the period February 1, 2018 to March 31, 2018, 96% of the revenues (\$6.0 million) was from one customer based in Switzerland. As at March 31, 2019, there was \$nil (December 31, 2018: \$0.4 million) outstanding in trade and other receivables.

## 17. Supplementary Cash Flow Information

# a. Net Change in Working Capital

		Three months ended

	Mar.	31, 2019	Mar. 31, 2018	
Interest paid on loans and borrowings	\$	(443)	\$ (176)	

## 18. Related Party Transactions

#### a) Purchases of Services

The Company entered into the following transactions with related parties during the three months ended March 31, 2019. Transactions with related parties are recorded at the price agreed between the parties. Transactions in the normal course of business are measured at the monetary amount, which is the amount of consideration established, agreed to and paid by the related parties based on standard commercial terms.

# (i) Management Fees

Management fees and employment compensation pursuant to the Management Services Agreement for the three months ended March 31, 2019 were \$0.6 million (three months ended March 31, 2018: \$0.6 million). The employment compensation portion was paid directly to employees and consultants of SRHI provided by SCLP and the remainder was paid and payable to SCLP, an entity with directors and officers in common. As at March 31, 2019, there was \$0.5 million (December 31, 2018: \$0.9 million) payable to SCLP for management fees calculated pursuant to the MSA.

# (ii) Mine Contracting Services

MTV utilizes contractors for several mining services.

Inversiones Genova S.A.

For the three months ended March 31, 2019, \$0.5 million (two months ended March 31, 2018: \$0.7 million) was paid to Inversiones Genova S.A. for services provided to the Company, which included \$0.1 million (two months ended March 31, 2018: \$nil) for ore purchases. As at March 31, 2019, a balance of \$0.5 million (December 31, 2018: \$0.2 million) payable to Inversiones Genova S.A. remained outstanding. Inversiones Genova S.A. is affiliated with the minority shareholder of MTV.

Sprott Resource Holdings Inc.

Notes to Condensed Interim Consolidated Financial Statements

For the three months ended March 31, 2019 and 2018

Unaudited - Tabular amounts expressed in thousands of United States dollars except as noted

#### Vecchiola S.A.

For the three months ended March 31, 2019, \$2.5 million was paid to Vecchiola S.A. (two months ended March 31, 2018: \$nil), a mining contractor. As at March 31, 2019, a balance of \$3.1 million (December 31, 2018: \$0.9 million) payable to Vecchiola S.A. remained outstanding. Vecchiola S.A. is affiliated with the minority shareholder of MTV.

## (iii) MTV Management Loan

On November 12, 2018, certain senior managers of MTV entered into a loan agreement with MTV whereby a loan facility of \$0.6 million was granted to MTV. The unsecured loan has an interest rate of 12% per annum payable on the outstanding principal and repayment of interest and principal is due May 12, 2019.

On January 9, 2019, certain senior managers of MTV entered into a loan agreement with MTV whereby a loan facility of \$0.4 million was granted to MTV. The unsecured loan has a minimum interest rate of 12% per annum payable on the outstanding principal and repayment of interest and principal is due November 30, 2019.

As at March 31, 2019, \$1.0 million of principal and interest was outstanding (December 31, 2018: \$0.6 million).

## b) Key Management Compensation

Compensation for services paid or payable to executive officers and independent directors of the Company is shown below:

	Three months ended		
	Ma	ar. 31, 2019	Mar. 31, 2018
Compensation paid by and on behalf of SRHI for executive management services provided to the Company (including stock-based compensation)	\$	123 \$	245
Directors fees and stock-based compensation		116	113
	\$	239 \$	358

# 19. Fair Value Estimation

All of the Company's portfolio investments are carried at fair value. SRHI includes portfolio investments in private companies in Level 3 of the fair value hierarchy because they trade infrequently and have limited observable inputs. The Company's exchange-traded portfolio investments that are quoted on active markets are measured at fair value using closing prices.

The Company has provided fair market disclosure for its portfolio of investments by three industry groups. The mining industry group consists of three mining companies (2018 - three companies), one of which is in the exploration stage, one that is in the producing stage and another that is in care and maintenance. The energy production and services industry group consists of an oil and gas exploration and production investment (2018 - one company). The companies in each of the two industry groups share similar risk profiles and have therefore been grouped together.

The following table presents the classification within the levels of the fair value hierarchy.

As at March 31, 2019	Level 1	Level 2	Level 3	Total
Investments - mining	\$ 11,499 \$	<b>-</b> \$	4,682 \$	16,181
Investments - energy production and services	5,364	_	_	5,364
Deferred revenue	_	1,749	<u> </u>	1,749
	\$ 16,863 \$	1,749 \$	4,682 \$	23,294

For the three months ended March 31, 2019 and 2018

Unaudited - Tabular amounts expressed in thousands of United States dollars except as noted

As at December 31, 2018	,	Level 1	Level 2	Level 3	Total
Investments - mining	\$	9,801 \$	<b>-</b> \$	4,586 \$	14,387
Investments - energy production and services		5,098	_	_	5,098
Deferred revenue			2,925	<del>_</del>	2,925
	\$	14,899 \$	2,925 \$	4,586 \$	22,410

Effective the Transition Date, the Company reported Beretta as held for sale and consolidates MTV. Prior to the Transition Date, both Beretta and MTV were portfolio investments reported at FVTPL under Investment Entity Reporting.

The Company's policy is to recognize transfers to and from fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer. There have been no transfers between levels during the three months ended March 31, 2019 and March 31, 2018.

The fair value measures of the biological assets (\$3.0 million) in the Asset held for sale as at March 31, 2019 (December 31, 2018: \$1.3 million) have been categorized as a Level 2 fair value based on observable quoted prices for breeding herd carrying values and quantities.

The following presents the movement in Level 3 instruments for the three months ended March 31, 2019 and the year ended December 31, 2018:

	Mar	. 31, 2019	Dec. 31, 2018
Opening balance	\$	4,586	\$ 53,574
Derecognition of Beretta and MTV as portfolio investments		_	(47,570)
Unrealized loss for the period		_	(1,143)
Foreign currency translation differences		96	(275)
Ending balance	\$	4,682	\$ 4,586

### **Valuation Methodologies**

The Company's management team is responsible for determining fair value measurements included in the Financial Statements, including Level 3 measurements. The valuation processes and results are reviewed and approved by the Chief Executive Officer and Chief Financial Officer at least once every quarter, in line with the Company's quarterly reporting dates.

The Company determines the fair values of its portfolio investments categorized in Level 3 using adjusted book value, earnings and revenue multiple methodologies, reference to recent transaction prices, public company comparables or a combination thereof. At least annually, each portfolio investment classified as a Level 3 investment is valued by an independent third-party professionally accredited valuator unless (i) there is sufficient external evidence, such as a recent third-party transaction, that would provide meaningful and supportable evidence to conclude on fair value or (ii) it is both uneconomical to perform and the range of fair values for the portfolio investment would not result in a material difference from any value within the range.

Where a recent investment has been made, either by the Company or by a third party in one of SRHI's portfolio investments, after considering the background of the underlying investment, this price will generally be used as the estimate of fair value, subject to consideration of changes in market conditions and company specific factors. Other methodologies may be used at any time if they are believed to provide a more accurate assessment of the fair value of the portfolio investment. The indicators that the price of a recent portfolio investment may no longer be appropriate include (but are not necessarily limited to) factors such as:

- significant under/over achievement of budgeted earnings;
- milestone achievements;
- · concerns with respect to debt covenants or refinancing;
- significant movements in the market sector of the investment;
- lack of significant third party investment;
- regulatory changes in the industry; and,
- · the passage of time.

If active business operations in an SRHI portfolio investment have not yet generated meaningful positive cash flows, after considering the background of the underlying portfolio investment, an adjusted book value approach is typically utilized adjusting the reported book value of those assets and liabilities required in operations to their respective fair values, subject to consideration of changes in market conditions and company specific factors.

Financial assets and liabilities that are not measured at fair value in the Consolidated Statements of Financial Position are represented by cash and cash equivalents, trade and other receivables, trade and other payables and loans and borrowings. Due to their short-term nature and low credit risk, the fair values of these financial assets and liabilities approximate their carrying amounts.

The Company's Level 3 portfolio investments consist of investments in the (i) energy production and (ii) mining sectors. The sensitivity of these investments' fair values is highly correlated to numerous unobservable inputs, the interrelationships of which are difficult to determine.

# 20. Financial Risk Management

The Company's activities expose it to certain financial risks during or at the end of the reporting period as described below.

## **Market Risk**

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates and commodity prices. The purpose of market risk management is to manage and control exposures to market risks, within acceptable parameters, while optimizing return. The sensitivities to market risks included below are based on a change in one factor while holding all other factors constant. In practice, this is unlikely to occur, and changes in some of the factors may be correlated - for example, changes in interest rates and changes in foreign currency rates.

## Interest Rate Risk

The Company's interest rate risk arises primarily from the interest received on cash and cash equivalents and any interest paid on floating rate borrowings. Management reduces interest rate risk exposure by entering into loans and borrowings with fixed rates of interest. All of the Company's current loans and borrowings are fixed rate.

Cash and cash equivalents are invested on a short-term basis to ensure minimal interest rate risk and to adequately provide liquidity for payment of operational and capital expenditures. To date, no interest-rate management products, such as swaps, are used in relation to cash and cash equivalents.

## Foreign Currency Risk

The individual financial statements of each group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). The functional currency for results and financial position of Canadian entities is CAD while for Chilean entities is USD. The presentation currency for the Financial Statements is USD.

The Company incurs expenditures in CAD other than through its subsidiary, MTV, whose expenditures are primarily in USD. The Company's exposure to foreign currency risk at March 31, 2019 arises primarily from those transactions carried out at MTV in CLP rather than USD and that have a direct effect on the operating results, such as wages.

## Commodity Price Risk

Commodity price risk is the risk that the fair values or cash flows associated with the Company's revenues and portfolio investments will vary due to changes in the prices of a particular commodity, e.g. copper, metallurgical coal, oil, natural gas liquids or natural gas. The Company does not engage in programs to mitigate its copper commodity exposure.

The Company is exposed to commodity price risk in respect of its revenues as nearly all of its revenues are generated from the sale of copper cathodes. In addition, several of its portfolio investments are exposed to commodity price risk since their revenues are dependent on the market price of metallurgical and thermal coal, petroleum or natural gas. The price of these commodities is volatile and subject to fluctuations that may have a significant effect on the ability of the portfolio companies to meet their obligations, capital spending targets or commitments, and expected operational results which in turn impacts their fair values as recorded by the Company.

## Price Risk

Price risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market prices (other than those arising from foreign currency risk, interest rate risk or commodity price risk) whether those changes are caused by factors specific to the individual financial instrument, its issuer, or factors affecting all similar financial instruments traded in the market. The Company is subject to price risk through its

public equity portfolio investments. The Company's private portfolio investments are also subject to price risk as they are impacted by many general and specific market variables.

#### **Credit Risk**

Credit risk is the risk that a third party will fail to meet its contractual obligations, which could result in the Company incurring a loss and arises primarily from the Company's receivables from customers and its cash and cash equivalents deposited with financial institutions.

The Company invests cash and cash equivalents with financial institutions that are financially sound based on their credit rating with the majority of the Company's cash held through large Canadian financial institutions with credit ratings of AA or higher. The Company's exposure to credit risk associated with accounts receivable is influenced mainly by the individual characteristics of each customer. The Company currently has one customer that represents 94% of revenue for the three months ended March 31, 2019 and which is considered low risk as it is an independent commodity trading company with operations throughout the world. The Company has not incurred any credit losses during the three months ended March 31, 2019 nor does it have an allowance for doubtful accounts.

The carrying value of financial assets recorded in the Financial Statements, net of any allowances for losses, represents the Company's maximum exposure to credit risk.

## Liquidity Risk

Liquidity risk is the risk associated with the difficulties that the Company may have meeting the obligations associated with financial liabilities that are settled with cash payments or with another financial asset. The Company manages liquidity risk by maintaining sufficient cash and cash equivalents balances to enable settlement of transactions on the due date. Periodic cash flow forecasts are performed to ensure the Company has sufficient cash to meet operational costs.

The Company monitors the expected settlement of financial assets and liabilities on an ongoing basis. A maturity analysis was performed for all financial liabilities in Note 15.

The Company invests in securities of public and private companies. In some cases, the Company may be restricted by contract or by applicable securities laws from selling such securities for a period of time. The inability to sell such securities may impair the Company's ability to exit these portfolio investments when the Company considers it appropriate.

If necessary, the Company may seek financing for capital projects or general working capital purposes. Such financing, if required, will depend on a number of unpredictable factors, which are often beyond the control of the Company. These would include the realized price of the actual copper produced from the Company's operating mines, and expected capital expenditures.

## 21. Capital Management

The Company defines capital as shareholders' equity, being its net assets. The Company's corporate office is responsible for capital management. The objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain a flexible capital structure that optimizes the costs of capital at an acceptable risk.

The primary capital management objective of the Company is to ensure adequate working capital is available to adequately fund the Board-approved business plans which include those of MTV such as the costs of mining operations, capital commitments and corporate overhead costs.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. Capital management is undertaken to ensure a secure, cost-effective supply of funds to ensure the Company's operating, administrative and capital expenditure requirements are met. To maintain or adjust capital structure, the Company may attempt to issue new shares, repurchase for cancellation outstanding shares, acquire or dispose of assets, incur short-term or long-term debt or adjust the amount of cash and cash equivalents and portfolio investments.
