REC. (unc): BUY TARGET (unc): C\$2.35/sh RISK RATING (unc): HIGH

Today's drill results, specifically the 'small step outs', point to potential inventory growth into the upcoming DFS, from both iterative step outs and inferred conversion, the target of the drilling from the beginning. We model C\$717m NPV<sub>5%-1850</sub> for Twin Hills at build start, or ~C\$36m NPV / +21c/sh increase for each 100koz added to the mine plan, all the more if >1.04g/t reserve grade can be scheduled up front. While difficult to forecast ounce-additions, drilling looks good for +50-150koz in our view, with Twin Hills West and Cloud West the engine room here. Digging in, (i) Twin Hills West is shaping up nicely as step-out drilling hit 74m @ 0.63g/t (incl. 17m @ 1.05g/t) and infill of 24m @ 1.06g/t and 12m @ 3.09g/t are well over reserve grade, albeit this is give and take, while (ii) the exploration upside remains intact as step-out drilling at Clouds and Clouds West returned impressive **26m @ 1.44g/t** and **20m @ 1.64g/t**, albeit deeper hits so pending reserve conversion maths. Ultimately, mine plans can move the needle on valuations, hence the DFS inventory-growth could be a meaningful catalyst. For now, we maintain our BUY rating and C\$2.35/sh, price target, based on 0.5xNAV<sub>5%-1850</sub> including a 600koz high-grade Ondundu core at US\$50/oz. Looking ahead, the results that the OSI team have delivered on the project financing, exploration and engineering side for Twin Hills makes it one of our favourite bargain-picks as it is one of the few deliverable (reasonable capex, good permitting, easy infrastructure) 'will be a mine' names trading cheaply at just 0.18xNAV.

#### Step out drilling at Twin Hills hit 20m @ 1.6g/t; infill drilling for mid year DFS by mid-2023

<u>Step-out</u> drilling at Twin Hills Clouds West target hit **20m @ 1.64g/t** from 259m, a 200m step-out from the MRE envelope; Clouds hit **77m @ 0.92g/t** from 327m and **34m @ 1.17g/t** from 191m; Twin Hills West hit **74m @ 0.63g/t** from 183m and and Twin Hills Central hit **66m @ 1.02g/t** from 420m. <u>Infill drilling</u> hit **56m @ 0.88g/t** from 275m and **11m @ 4.72g/t** from 259m, and **24m @ 1.06g/t** from 217m and **12m @ 3.09g/t** from 105m at Twin Hills Central. A total of 14,428m of drilling (74 holes) have been drilled since the August 2022 MRE, 5,470m of assay results are still pending, with results to be incorporated into an updated MRE which will be the basis for the DFS which is expected to be delivered by mid-2023.

#### Why we like Osino Resources

- Vanilla pittable gold with 200koz pa Y1-4 and team that has done it before
- Osino's 9,840km<sup>2</sup> holdings offer near-resource and regional upside
- Namibia's ease of access for drilling, large holding, and rapid permitting
- Catalyst heavy with permits, DFS, debt and FID in coming 12M, market dependent

### Catalysts

- 2H23: Permitting, regional exploration
- 2Q23: DFS / project funding / FID
- 2025: First production

The opinions expressed in this report are the opinions of the author and readers should not assume they reflect the opinions or recommendations of SCP's research department. The information in this report is drawn from sources believed to be reliable but the accuracy or completeness of the information is not guaranteed, nor in providing it does SCP and/or affiliated companies or persons assume any responsibility or liability whatsoever. This report is not to be construed as an offer to sell or a solicitation of an offer to buy any securities. SCP accepts no liability whatsoever for any loss arising from any use or reliance on this research report or the information contained herein. Past performance is not a guarantee of future results, and no representation or warranty, expressed or implied, is made regarding future performance of any security mentioned in this research report. The price of the securities mentioned in this research report and the income they generate may fluctuate and/or be adversely affected by market factors or exchange rates, and investors may realize losses on investments in such securities, including the loss of investment principal. Furthermore, the securities discussed in this research report may not be liquid investments, may have a high level of volatility or may be subject to additional and special risks associated with securities and investments in emerging markets and/or foreign countries that may give rise to substantial risk and are not suitable for all investors. SCP may participate in an underwriting of, have a position in, or make a market in, the securities mentioned herein, including options, futures or other derivatives instruments thereon, and may, as a principal or agent, buy or sell such products.

**DISSEMINATION OF RESEARCH:** SCP's research is distributed electronically through email or available in hard copy upon request. Research is disseminated concurrently to a pre-determined list of clients provided by SCP's Institutional Sales Representative and retail Investment Advisors. Should you wish to no longer receive electronic communications from us, please contact <u>unsubscribe@sprott.com</u> and indicate in the subject line your full name and/or corporate entity name and that you wish to unsubscribe from receiving research.

**RESEARCH ANALYST CERTIFICATION:** Each Research Analyst and/or Associate who is involved in the preparation of this research report hereby certifies that:

- The views and recommendations expressed herein accurately reflect his/her personal views about any and all of the securities or issuers that are the subject matter of this research report;
- His/her compensation is not and will not be directly related to the specific recommendations or view expressed by the Research analyst in this research report;
- They have not affected a trade in a security of any class of the issuer within the 30-day period prior to the publication of this research report;

- They are unaware of any other potential conflicts of interest.

**UK RESIDENTS:** Sprott Partners UK Limited ("Sprott") is an appointed representative of PillarFour Securities LLP which is authorized and regulated by the Financial Conduct Authority. This document has been approved under section 21(1) of the FMSA 2000 by PillarFour Securities LLP ("PillarFour") for communication only to eligible counterparties and professional clients as those terms are defined by the rules of the Financial Conduct Authority. Its contents are not directed at UK retail clients. PillarFour does not provide investment services to retail clients. PillarFour publishes this document as non-independent research which is a marketing communication under the Conduct of Business rules. It has not been prepared in accordance with the regulatory rules relating to independent research, nor is it subject to the prohibition on dealing ahead of the dissemination of investment research. It does not constitute a personal recommendation and does not constitute an offer or a solicitation to buy or sell any security. Sprott and PillarFour consider this note to be an acceptable minor non-monetary benefit as defined by the FCA which may be received without charge. This is because the content is either considered to be commissioned by Sprott's clients as part of their advisory services to them or is short term market commentary. Neither Sprott nor PillarFour nor any of its directors, officers, employees or agents shall have any liability, howsoever arising, for any error or incompleteness of fact or opinion in it or lack of care in its preparation or publication; provided that this shall not exclude liability to the extent that this is impermissible under the law relating to financial services. All statements and opinions are made as of the date on the face of this document and are not held out as applicable thereafter. This document is intended for distribution only in those jurisdictions where PillarFour is permitted to distribute its research.

**IMPORTANT DISCLOSURES FOR U.S. PERSONS:** This research report was prepared by Sprott Capital Partners LP ("SCP"), a company authorized to engage in securities activities in Canada. SCP is not a registered broker/dealer in the United States and, therefore, is not subject to U.S. rules regarding the preparation of research reports and the independence of research analysts. This research report is provided for distribution to "major U.S. institutional investors" in reliance on the exemption from registration provided by Rule 15a-6 of the U.S. Securities Exchange Act of 1934, as amended (the "Exchange Act"). Any U.S. recipient of this research report wishing to effect any transaction to buy or sell securities or related financial instruments based on the information provided in this research report should do so only through Sprott Global Resource Investments Ltd. ("SGRIL"), a broker dealer in the United States registered with the Securities Exchange Commission ("SEC"), the Financial Industry Authority ("FINRA"), and a member of the Securities Investor Protection Corporation ("SIPC"). Under no circumstances should any recipient of this research report effect any transaction to buy or sell securities or related financial instruments through SCP.

SGRIL accepts responsibility for the contents of this research report, subject to the terms set out below, to the extent that it is delivered to a U.S. person other than a major U.S. institutional investor. The analyst whose name appears in this research report is not licensed, registered, or qualified as a research analyst with FINRA and may not be an associated person of SGRIL and, therefore, may not be subject to applicable restrictions under FINRA Rule 2241 regarding communications by a research analyst with a subject company, public appearances by the research analyst, and trading securities held by a research analyst account. To make further inquiries related to this report, United States residents should contact their SGRIL representative.

SPROTT CAPITAL PARTNERS EXPLANATION OF RECCOMENDATIONS: Should SCP issue research with recommendations, the research rating guidelines will be based on the following recommendations:

**BUY:** The stocks total returns are expected to be materially better than the overall market with higher return expectations needed for more risky securities markets

NEUTRAL: The stock's total returns are expected to be in line with the overall market

SELL: The stocks total returns are expected to be materially lower than the overall market

TENDER: The analyst recommends tendering shares to a formal tender offering

**UNDER REVIEW:** The stock will be placed under review when there is a significant material event with further information pending; and/or when the research analyst determines it is necessary to await adequate information that could potentially lead to a reevaluation of the rating, target price or forecast; and/or when coverage of a particular security is transferred from one analyst to another to give the new analyst time to reconfirm the rating, target price or forecast.

NOT RATED ((N/R): The stock is not currently rated
