Interim Management Report of Fund Performance	3
Interim Financial Statements	7

The interim management report of fund performance is an analysis and explanation that is designed to complement and supplement an investment fund's interim financial statements. A copy of the interim financial statements has been included within the Report to Unitholders. You can also get a copy of the interim financial statements at your request, and at no cost, by calling 1-888-622-1813, by visiting our website at www.sprott.com or SEDAR at www.sedarplus.ca or by writing to us at: Sprott Asset Management LP, Royal Bank Plaza, South Tower, 200 Bay Street, Suite 2600, P.O. Box 26, Toronto, Ontario M5J 2J1.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Interim Management Report of Fund Performance *(in U.S. dollars)*

Management Discussion of Fund Performance

Investment Objective and Strategies

Sprott Physical Uranium Trust (the “Trust”) is a closed-end investment trust established on April 23, 2021 under the laws of the Province of Ontario, Canada and its provisions and features are set out in an amended and restated trust agreement dated as of July 12, 2021. Sprott Asset Management LP (the “Manager”) is the manager of the Trust. WMC Energy B.V. is the technical advisor (the “Advisor”) to the Manager.

The Trust was created to invest and hold substantially all of its assets in physical uranium. The Trust seeks to provide a secure, convenient and exchange-traded investment alternative for investors interested in holding physical uranium without the inconvenience that is typical of a direct investment in physical uranium. The Trust intends to achieve its objective by investing primarily in long-term holdings of unencumbered physical uranium and does not speculate with regard to short-term changes in uranium prices.

Risks

The risks associated with an investment in the Trust remain as disclosed in the Trust’s most recent prospectus or any amendments thereto. During the period, there were no changes to the Trust that materially affected the overall risk level associated with an investment in the Trust.

Results of Operations

For the six months ended June 30, 2026, the net change in unrealized gains on physical uranium oxide amounted to \$216.0 million and no realized gains or losses, compared to the net change in unrealized gains of \$358.1 million and no realized gains or losses during the same period in 2025.

During six months ended June 30, 2026, the Trust issued 33,085,763 units through the ATM Program for gross proceeds of \$703.0 million. Comparatively, for the same period in 2025, the Trust issued 13,506,362 units for gross proceeds of \$232.8 million.

The value of the net assets¹ of the Trust as at June 30, 2026 was \$7,044.2 million or \$20.47 per unit, compared to \$6,157.8 million or \$19.80 per unit as at December 31, 2025. The Trust held 81,447,348 pounds of physical uranium oxide as at June 30, 2026 compared to 74,789,404 pounds of physical uranium oxide as at December 31, 2025. As at June 30, 2026, the spot price of physical uranium oxide was \$85.03 per pound compared to the spot price of physical uranium oxide of \$81.54 per pound as at December 31, 2025. The Trust returned 3.4% compared to the return on spot uranium oxide of 4.3% for the six months ended June 30, 2026. Comparatively, for the same period in 2025, the Trust returned 6.5% compared to the return on spot uranium oxide of 7.4%.

The units of the Trust closed at \$18.37 on the TSX on June 30, 2026 compared to closing price \$19.50 on the TSX on December 31, 2025. These units are denominated in U.S. dollars on the exchange. During the six months ended June 30, 2026, the Trust’s units traded on the TSX at an average discount to net asset value of approximately 2.7%, compared to an average discount of approximately 8.0% for the same period in 2025.

¹ Net assets are equal to total assets less total liabilities (or total equity) on the unaudited statements of financial position.

The Trust pays its own expenses, which include, but are not limited to, audit, legal, and trustee fees, unitholder reporting expenses, general and administrative fees, filing and listing fees payable to applicable securities regulatory authorities and stock exchange, storage fees and commission of 1% on the sale and purchase of physical uranium, and any expenses associated with the Independent Review Committee of the Trust. Operating expenses¹ for the six months ended June 30, 2026 amounted to \$12.5 million compared to \$7.9 million for the same period in 2025. Operating expenses for the six months ended June 30, 2026 amounted to 0.36% of average net assets² during the period on an annualized basis, compared to 0.35% for the same period in 2025.

Recent Developments

There were no changes to the Manager of the Trust, nor were there any material changes to the investment objective or processes.

Related Party Transactions

The transactions between the Trust and its related parties during the reporting period are outlined below:

Management Fees

The Trust pays the Manager, a monthly management fee equal to $\frac{1}{12}$ of 0.35% of the value of the net assets of the Trust (determined in accordance with the Trust's trust agreement), plus any applicable sales taxes. The management fee is calculated and accrued daily and payable monthly in arrears on the last day of each month. For the six months ended June 30, 2026, the Trust incurred management fees of \$12.1 million compared to \$8.0 million for the same period in 2025. As at June 30, 2026, the Trust has no management fee payable³ compared to \$nil as at December 31, 2025.

Commissions

Pursuant to the management agreement, the Trust pays the Manager a commission of 1% of the gross value of any purchases or sales of physical uranium, plus any applicable sales taxes, provided that the Manager shall be responsible for any and all third party brokerage fees, commissions and service charges and other similar fees relating to all such transactions. For the six months ended June 30, 2026, commissions and other services due to the Manager amounted to \$6.1 million compared to \$1.1 million for the same period in 2025. As at June 30, 2026, commissions and other services payable to the Manager amounted to \$nil, compared to \$0.6 million as at December 31, 2025.

¹ The operating expenses non-GAAP measure is calculated for the year-to-date to June 30, 2026 as total expenses per the unaudited statements of comprehensive income (loss) less management fees of \$12.1 million, commissions of \$6.1 million, sales tax of \$nil, and net foreign exchange losses (gains) of \$0.1 million (amounts for the year-to-date period to June 30, 2025 were \$8.0 million, \$1.1 million, \$nil and \$nil, respectively).

² Average net assets is the average of the daily net asset value of the Trust for the applicable period.

³ Included in Accounts payable on the unaudited statements of financial position, if any.

Financial Highlights

The following tables show selected key financial information about the Trust and are intended to help you understand the Trust's financial performance for the periods indicated. All dollar amounts are expressed in U.S. dollars.

The Trust's Net Assets Per Unit¹

	For the six months ended June 30, 2026 (unaudited)	For the year ended December 31, 2025	For the year ended December 31, 2024	For the year ended December 31, 2023	For the year ended December 31, 2022
	\$	\$	\$	\$	\$
Net assets, beginning of period	19.80	18.02	22.57	12.12	10.82
Increase (decrease) from operations²:					
Total revenue	0.01	0.02	0.01	0.01	—
Total expenses	(0.09)	(0.15)	(0.15)	(0.12)	(0.13)
Realized gains (losses) for the period	—	—	—	—	—
Unrealized gains (losses) for the period	0.64	2.03	(4.47)	10.67	0.97
Total increase (decrease) from operations	0.56	1.90	(4.61)	10.56	0.84
Net assets, end of period	20.47	19.80	18.02	22.57	12.12

¹ This information is derived from the Trust's unaudited interim and audited annual financial statements.

² Net assets per unit is calculated based on the actual number of units outstanding at the relevant period end date. The increase/decrease from operations is based on the weighted average number of units outstanding over the period shown. This table is not intended to be a reconciliation of the beginning to ending net assets per unit.

Ratios and Supplemental Data

	For the six months ended June 30, 2026 (unaudited)	For the year ended December 31, 2025	For the year ended December 31, 2024	For the year ended December 31, 2023	For the year ended December 31, 2022
Total net asset value (000's) ¹	\$7,044,245	\$6,157,817	\$4,862,001	\$5,772,792	\$2,875,719
Number of Units outstanding ¹	344,156,215	311,070,452	269,868,528	255,771,128	237,365,700
Management expense ratio ²	0.71%	0.68%	0.64%	0.71%	0.70%
Trading expense ratio ³	0.18%	0.13%	0.05%	0.06%	0.33%
Portfolio turnover rate ⁴	—	—	—	—	—
Net asset value per Unit	\$20.47	\$19.80	\$18.02	\$22.57	\$12.12
Closing market price – TSX	\$18.37	\$19.50	\$17.29	\$21.30	\$11.70

¹ This information is provided as at the date shown, as applicable.

² Management expense ratio is based on total expenses (including applicable sales taxes and excluding commissions) for the stated period and is expressed as an annualized percentage of average daily net asset value during the period.

³ The trading expense ratio represents total commissions and is expressed as an annualized percentage of average daily net asset value during the period shown.

⁴ The Trust's portfolio turnover rate indicates how actively the Trust's portfolio adviser trades its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Trust buying and selling all of the securities in its portfolio once in the course of the period. The higher the Trust's portfolio turnover rate in a period, the greater the trading costs payable by the Trust in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of the Trust.

Past Performance

The indicated rates of return are the historical total returns including changes in unit values and assumes reinvestment of all distributions in additional units of the Trust. These returns do not take into account sales, distribution or optional charges or income taxes payable by any unitholder that may reduce returns. Please note that past performance is not indicative of future performance. All rates of returns are calculated based on the net asset value of the units of the Trust.

Year-by-Year Returns

The bar chart below indicates the performance of the Trust units for periods shown. The chart shows, in percentage terms, how much an investment made on the first day of each period would have increased or decreased by the last day of each period.

- 1 For the period from July 19, 2021 (commencement of operations) to December 31, 2021.
 2 For the six months ended June 30, 2026.

Summary of Investment Portfolio

The following Top Holdings table shows the 25 largest positions (or all positions if the total number of positions is less than 25) held by the Trust as at June 30, 2026 based on the fair value of the position, expressed as a percentage of the Trust's net asset value.

PORTFOLIO ALLOCATION	
Asset Class	% of Net Asset Value
Uranium oxide	98.3
Cash	1.9
Other assets, less liabilities	(0.2)

Total Net Asset Value (000's)	\$7,044,245
-------------------------------	-------------

TOP HOLDINGS	
Position	% of Net Asset Value
Physical uranium oxide	98.3
Cash	1.9
Other assets, less liabilities	(0.2)
Total	100.0

The summary of investment portfolio may change due to the ongoing portfolio transactions of the Trust.

Sprott Physical Uranium Trust

Notes to financial statements

June 30, 2026

(in thousands of U.S. dollars, unless otherwise indicated)

1. Organization of the Trust

Sprott Physical Uranium Trust (the “Trust”) is a closed-end investment trust created under the laws of the Province of Ontario, Canada, pursuant to a trust agreement dated as of April 23, 2021. Sprott Asset Management LP (the “Manager”) acts as the manager of the Trust. RBC Investor Services Trust, a trust company organized under the laws of Canada, acts as the trustee of the Trust. RBC Investor Services Trust also acts as custodian on behalf of the Trust for the Trust’s assets other than physical uranium. Cameco Corporation, ConverDyn, and Orano Chimie-Enrichissement individually act as custodians on behalf of the Trust for the physical uranium owned by the Trust. The Trust’s registered office is located at Suite 2600, South Tower, Royal Bank Plaza, 200 Bay Street, Toronto, Ontario, Canada, M5J 2J1.

The investment objective of the Trust is to provide a secure, convenient and exchange-traded investment alternative for investors interested in holding physical uranium without the inconvenience that is typical of a direct investment in physical uranium. The Trust invests and intends to continue to invest primarily in long-term holdings of unencumbered physical uranium and does not speculate with regard to short-term changes in uranium prices.

The Trust is authorized to issue an unlimited number of non-redeemable, transferable trust units (the “Units”). All issued Units have no par value, are fully paid for, and are listed and traded on the Toronto Stock Exchange (the “TSX”). The date of inception and trading symbols of the Trust are as follows:

Trust	Trust Agreement date	Initial Public Offering date	TSX USD and CAD symbols, respectively
Sprott Physical Uranium Trust	April 23, 2021, as amended and restated as of July 12, 2021	July 19, 2021	U.U, U.UN

The unaudited statements of financial position for the Trust are as at June 30, 2026 and December 31, 2025. The unaudited statements of comprehensive income (loss), the unaudited statements of changes in equity and unaudited statements of cash flows for the Trusts are for the six month periods ended June 30, 2026 and 2025. These unaudited interim financial statements were authorized for issue by the Manager on August 13, 2026

2. Basis of Preparation

These unaudited interim financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting as issued by the International Accounting Standards Board (“IASB”) and include estimates and assumptions made by the Manager that may affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and the reported amounts of changes in equity during the reporting period. Actual results could differ from those estimates.

The financial statements have been prepared on a going concern basis using the historical cost convention, except for physical uranium and financial assets and financial liabilities held at fair value through profit or loss, which have been measured at fair value.

The financial statements are presented in U.S. dollars and all values are rounded to the nearest thousand (\$000s) unless otherwise indicated.

Sprott Physical Uranium Trust

Notes to financial statements

June 30, 2026

(in thousands of U.S. dollars, unless otherwise indicated)

3. Summary of Material Accounting Policies

The following is a summary of material accounting policies followed by the Trust:

Physical uranium

Investments in physical uranium are measured at fair value determined by reference to published price quotations, with unrealized and realized gains and losses recorded in income based on the International Accounting Standards (“IAS”) 40, *Investment Property* fair value model. Investment transactions in physical uranium are accounted for on the trade date basis. Realized and unrealized gains and losses of holdings are calculated on a weighted average cost basis. From time to time, the Trust enters into location exchanges with third parties whereby the Trust provides uranium to the counterparty at a storage facility and receives the same amount and type of uranium at an alternate storage facility. No gains or losses are recognized on such exchanges.

Other financial assets and liabilities

Other financial assets and liabilities are recognized at fair value upon initial recognition. Other financial assets such as due from broker and other receivables are classified as loans and receivables and measured at amortized cost. Other financial liabilities such as accounts payable are measured at amortized cost.

Income taxes

In each taxation year, the Trust will be subject to income tax on taxable income earned during the year, including net realized taxable capital gains. However, the Trust intends to distribute its taxable income to unitholders at the end of every fiscal year and therefore the Trust would not have any income tax liability. As a result, the Manager has determined that the Trusts are in substance not taxable and therefore do not record income taxes in the statements of comprehensive income (loss) nor do they recognize any deferred tax assets or liabilities in the statements of financial position.

Functional and presentation currency

The Trust’s functional and presentation currency is the U.S. dollar. The Trust’s performance is evaluated and its liquidity is managed in U.S. dollars. Therefore, the U.S. dollar is considered as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions.

Future accounting standards

In April 2024, the IASB issued IFRS 18, which replaces IAS 1 *Presentation of Financial Statements*. IFRS 18 introduces changes with how an entity presents its statement of operations, including mandatory totals and subtotals, as well as classification of income and expenses into five categories: operating, investing, financing, income taxes and discontinued operations. IFRS 18 also requires additional disclosure around management-defined performance measures.

IFRS 18 is effective for the Trust’s fiscal year beginning January 1, 2027 and will be applied retrospectively. The Trust is currently assessing the impacts of the conversion to IFRS 18.

Sprott Physical Uranium Trust

Notes to financial statements

June 30, 2026

(in thousands of U.S. dollars, unless otherwise indicated)

4. Critical Accounting Estimates and Judgments

The preparation of financial statements requires management to use judgment in applying its accounting policies and to make estimates and assumptions about the future. The following discusses the most significant accounting judgments and estimates that the Trust has made in preparing the financial statements:

Estimation uncertainty

For income tax purposes, the Trust generally treats gains (or losses) from the disposition of uranium as capital gains (or losses), rather than income, as the Trust intends to be a long-term passive holder of uranium, and generally disposes of its holdings in uranium only for the purposes of paying expenses. The Canada Revenue Agency has, however, expressed its opinion that gains (or losses) of investment trusts resulting from transactions in commodities should generally be treated for tax purposes as ordinary income rather than as capital gains (or losses), although the treatment in each particular case remains a question of fact to be determined having regard to all the circumstances.

The Trust based its assumptions and estimates on information available when the financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the Trust. Such changes are reflected in the assumptions when they occur.

5. Fair Value Measurements

The Trust uses a three-tier hierarchy as a framework for disclosing fair value based on inputs used to value its investments. The fair value hierarchy has the following levels:

- Level 1 Unadjusted quoted prices in active markets for identical, unrestricted assets or liabilities that the Trust has the ability to access at the measurement date;
- Level 2 Quoted prices which are not active, or inputs that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and
- Level 3 Prices, inputs or complex modeling techniques which are both significant to the fair value measurement and unobservable (supported by little or no market activity).

Physical uranium is measured at fair value. The fair value measurement of all uranium falls within Level 2 of the hierarchy, and is based on published price quotations. All fair value measurements are recurring. The carrying values of cash, sales tax recoverable, other assets, accounts payable, due to manager and trade and other liabilities, where applicable, approximate their fair values due to their short-term nature.

The reconciliation of uranium oxide holdings for the six months ended June 30, 2026 and year ended December 31, 2025 is presented as follows:

	June 30, 2026	December 31, 2025
	\$	\$
Balance at beginning of period	6,098,515	4,845,672
Purchases	611,160	678,473
Sales	—	—
Net change in unrealized gains (losses)	215,956	574,370
Net realized gains (losses) on sales of physical uranium	—	—
Balance at end of period	6,925,631	6,098,515

The acquisition costs of physical uranium oxide as at June 30, 2026 and December 31, 2025 were \$4,286,192 and \$3,675,032 respectively.

Sprott Physical Uranium Trust

Notes to financial statements

June 30, 2026

(in thousands of U.S. dollars, unless otherwise indicated)

6. Financial Risk, Management and Objectives

The Trust's objective in managing risk is the creation and protection of unitholder value. Risk is inherent in the Trust's activities, but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. The Trust has investment guidelines that sets out its overall business strategies, its tolerance for risk and its general risk management philosophy, as noted in the Trust's offering documents. The Trust's Manager is responsible for identifying and managing risks. The Trust is exposed to market risk (which includes price risk, interest rate risk and currency risk), credit risk, liquidity risk and concentration risk arising from the uranium that it holds. Only certain risks of the Trust are actively managed by the Manager, as the Trust is a passive investment vehicle. Significant risks that are relevant to the Trust are discussed below.

Price risk

Price risk arises from the possibility that changes in the market price of the Trust's investments, which consist almost entirely of uranium, will result in changes in fair value of such investments. If the price of uranium increased by 1%, with all other variables held constant, this would have increased total equity and comprehensive income by approximately \$69.3 million (December 31, 2025: \$61.0 million); conversely, if the value of uranium decreased by 1%, this would have decreased total equity and comprehensive income by the same amount.

Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect the value of financial instruments. The Trust does not hedge its exposure to interest rate risk as that risk is minimal.

Currency risk

Currency risk arises from the possibility that changes in the price of foreign currencies will result in changes in carrying value. The Trust's assets, substantially all of which consist of investment in uranium, are priced in U.S. dollars. Some of the Trust's expenses are payable in Canadian dollars. Therefore, the Trust is exposed to currency risk, as the value of its assets and liabilities denominated in Canadian dollars will fluctuate due to changes in exchange rates. Most of such assets and liabilities, however, are short term in nature and are not significant in relation to the net assets of the Trust, and, as such, exposure to foreign exchange risk is limited. The Trust does not enter into currency hedging transactions.

As at June 30, 2026, approximately (\$5,294) (December 31, 2025: (\$3,233)) of the Trust's net balance of other assets and accounts payable were denominated in Canadian dollars. As a result, a 1% change in the exchange rate between the Canadian and U.S. dollars would not have a material impact to the Trust.

Credit risk

Credit risk arises from the potential that counterparties will fail to satisfy their obligations as they come due. The Trust primarily incurs credit risk when entering into and settling uranium transactions. It is the Trust's policy to only transact with reputable counterparties. The Manager, in conjunction with its Advisor, closely monitors the creditworthiness of the Trust's counterparties, such as uranium suppliers, by reviewing their financial statements when available, regulatory notices and press releases. The Trust seeks to minimize credit risk relating to unsettled transactions in uranium by only engaging in transactions with uranium suppliers with high creditworthiness. The risk of default is considered minimal, as payment for uranium is only made against the receipt of the uranium by the custodian.

Liquidity risk

Liquidity risk is defined as the risk that the Trust will encounter difficulty in meeting obligations associated with financial liabilities. Liquidity risk arises because of the possibility that the Trust could be required to pay its liabilities earlier than expected. The marketability of uranium is affected by numerous factors including macroeconomic factors, fluctuations in the market price of uranium, governmental regulations, land tenure and use, regulations concerning the importing and exporting of uranium and environmental protection regulations. The future effects of these factors on liquidity risk are minimal as the Trust does not offer redemption privileges to unitholders. All of the Trust's financial liabilities, including trade and other liabilities, accounts payable and management fees payable, where applicable, have maturities of less than three months.

Concentration risk

The Trust's risk is concentrated in physical uranium oxide held by three custodians, whose value constitutes 44.6%, 29.9%, and 23.8% of total equity as at June 30, 2026 (49.0%, 25.1%, and 24.9% of total equity for physical uranium oxide held across three custodians as at December 31, 2025).

Tax Loss Carryforwards

As of the taxation year ended December 31, 2025, the Trust had capital losses available for tax purposes of \$nil (December 31, 2024: \$nil).

7. Unitholders' Capital

The Trust is authorized to issue an unlimited number of Trust Units in one or more classes and series of a class. Currently, the Trust's capital is represented by the issued, non-redeemable, transferable Trust Units. Incremental costs directly attributable to the issue of new units are shown in equity as a deduction from the proceeds. Quantitative information about the Trust's capital is provided in its statements of changes in equity.

The Trust's units are classified as equity on the statements of financial position, since the Trust's units meet the criteria in IAS 32, *Financial Instruments: Presentation* for classification as equity. The units entitle the holder to a pro-rata share of net assets, are the most subordinate class, and total expected cash flows attributable to the units are based on the change in fair value of the Trust.

Net Asset Value

NAV is defined as the Trust's net assets (fair value of total assets less fair value of total liabilities) calculated using the value of physical uranium based on the end-of-day price provided by widely recognized pricing sources.

Capital management

As a result of the ability to issue, repurchase and resell Units of the Trust, the capital of the Trust as represented by the Unitholders' capital in the statements of financial position can vary depending on the demand for subscriptions to the Trust. The Trust is not subject to externally imposed capital requirements and has no legal restrictions on the issue, repurchase or resale of such Units beyond those included in its trust agreement. The Trust may not issue additional Units except (i) if the net proceeds per Unit to be received by the Trust are not less than 100% of the most recently calculated NAV immediately prior to, or upon, the determination of the pricing of such issuance or (ii) by way of Unit distribution in connection with an income distribution.

Sprott Physical Uranium Trust

Notes to financial statements

June 30, 2026

(in thousands of U.S. dollars, unless otherwise indicated)

The Trust's objectives for managing capital are:

- To invest and hold substantially all of the Trust's assets in physical uranium; and
- To maintain sufficient liquidity to meet the expenses of the Trust.

Refer to "Financial risk, management and objectives" (Note 6) for the policies and procedures applied by the Trust in managing its capital.

8. Related Party Disclosures

The Trust pays the Manager a monthly management fee equal to $\frac{1}{12}$ of 0.35% of the value of net assets of the Trust (determined in accordance with the Trust's trust agreement) plus any applicable sales taxes, calculated and accrued daily and payable monthly in arrears on the last day of each month. As at June 30, 2026, the Trust has no management fee payable, as included in Accounts payable in the statements of financial position compared to \$nil as at December 31, 2025.

Pursuant to the management agreement, the Trust pays the Manager a commission of 1% of the gross value of any purchases or sales of uranium, plus any applicable sales taxes, provided that the Manager shall be responsible for any and all third party brokerage fees, commissions and service charges and other similar fees relating to all such transactions. For the six months ended June 30, 2026, commissions and other services due to the Manager amounted to \$6.1 million compared to \$1.1 million for the same period in 2025. As at June 30, 2026, commissions and other services payable to the Manager amounted to \$nil, compared to \$0.6 million as at December 31, 2025.

As of June 30, 2026, Sprott Inc., the parent entity of the Manager, held 148,774 units of the Trust (December 31, 2025: 148,774 units).

9. Independent Review Committee ("IRC")

In accordance with National Instrument 81-107, *Independent Review Committee for Investment Funds* ("NI 81-107"), the Manager has established an IRC for a number of funds managed by it, including the Trust. The mandate of the IRC is to consider and provide recommendations to the Manager on conflicts of interest to which the Manager is subject when managing certain funds, including the Trust. The IRC is composed of three individuals, each of whom is independent of the Manager and all funds managed by the Manager, including the Trust. Each fund subject to IRC oversight pays a share of the IRC member fees, costs and other fees in connection with operation of the IRC. The IRC reports annually to unitholders of the funds subject to its oversight on its activities, as required by NI 81-107.

10. Personnel

The Trust did not employ any personnel during the period, as its affairs were administered by the personnel of the Manager and/or the Trustee, as applicable.
